PROFESSIONAL SUMMARY

MCA candidate and AI Engineer trainee with hands-on experience in Python, Machine Learning, Deep Learning, Computer Vision, and NLP. Currently developing end-to-end AI solutions through an intensive AI Engineer training program, progressing from data Pre-processing and machine learning to deep learning, computer vision, NLP, Generative AI, and LLMs. Skilled in Python, TensorFlow, Keras, OpenCV, and Scikit-learn, with growing expertise in LLMs and Prompt Engineering. Certified in Agentic AI and Oracle Cloud Infrastructure AI by Oracle and completed an AI/ML internship at CTTC, Ministry of MSME. Seeking an entry-level AI/ML Engineer role in a global technology organization.

EDUCATION

Secondary (X), BSE — Saraswati Vidya Mandir, Aska, Odisha	2019 58.8%
Higher Secondary (XII), CHSE — Saraswati Vidya Mandir, Aska, Odisha	2021 58.7%
Bachelor of Computer Applications (BCA) — Science College (Autonomous), Hinjilicut, Ganjam	2021 – 2024 CGPA: 7.47/10
Master of Computer Applications (MCA) — NIST University, Berhampur, Odisha	2024 – 2026 CGPA: 8.40/10
Relevant Coursework: DSA, DBMS, OS, Computer Networks, Machine Learning, Artificial Intelligence	

TECHNICAL SKILLS

Machine Learning & Deep Learning: Supervised/Unsupervised Learning, CNN, Model Training & Evaluation, Feature Engineering, Classification, Regression, Clustering, XGBoost,
Computer Vision & NLP: OpenCV, CNN-based Vision Models, NLP Fundamentals, Real-Time Detection Systems
Generative AI: Prompt Engineering, Generative AI Fundamentals, LLMs, RAG, Agentic AI
Programming & Querying: Python, SQL
Libraries & Frameworks: NumPy, Pandas, Matplotlib, TensorFlow, Keras, Scikit-learn
Cloud & Data: Oracle Cloud Infrastructure (OCI) Ai fundamentals , MySQL, MongoDB, Power BI
Tools & Version Control: Git, GitHub, VS Code, Antigravity Soft Skills: Problem Solving, Communication, Team Collaboration

TRAINING & PROFESSIONAL DEVELOPMENT

Datamites AI Engineer Program (6-Month Program)	Jul 2026 – Ongoing
- Learning Python, SQL, Statistics, Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, and LLMs. - Gaining hands-on experience in data preprocessing, EDA, model building, evaluation, and deployment. - Working on a 3-month real-time industry project using a real-world dataset.	
AI/ML Intern (Certified) - CTTC, Bhubaneswar, Ministry of MSME	Jun 2025 – Jul 2025
Completed a 1-month certified program covering Supervised and Unsupervised Machine Learning, NLP, Computer Vision, and Deep Learning fundamentals.	

PROJECTS

Exploratory Analytics & Recommender System for Corporate Productivity	Machine Learning Project
Technologies: Python, NumPy, Pandas, Scikit-learn, K-Means, Random Forest, XGBoost, FastAPI	
- Built a hybrid ML system to classify employees into Low, Medium, and High productivity tiers, achieving approximately 90% accuracy. - Implemented K-Means clustering, feature-separated classification, and SHAP-based explainability to identify key productivity factors. Developed a gap-aware recommendation engine that generates personalized employee improvement suggestions.	

AI Face Recognition Attendance System

AI/ML Project

Technologies: Python, OpenCV, Deep Learning

- Built a real-time face recognition system automating attendance tracking, eliminating manual roll-calls and reducing errors, using deep learning-based embeddings and OpenCV.

Document Q&A Assistant - Using RAG

GenAI Project

Technologies: Python, LangChain, LLM, Embeddings, Vector Database

- Built a local-first RAG-based system that allows users to upload PDF/TXT documents and ask questions, generating answers grounded in the provided content.
- Implemented document processing, text chunking, embeddings, semantic retrieval, and source-chunk display for accurate and transparent responses.
- Designed the project as an end-to-end Generative AI application, demonstrating practical understanding of RAG, embeddings, vector search, LLMs, and prompt engineering.

CERTIFICATIONS

- Oracle Certified Foundations Associate — Agentic AI (Oracle University, 2026)
- Oracle Certified Foundations Associate — Oracle Cloud Infrastructure AI (Oracle University, 2026)
- CTTC AI/ML Internship Certificate — Ministry of MSME

LANGUAGE

English (Conversational), Odia, Hindi, Telugu (Native)
